Arpit Kulshrestha

Lead Data Science Engineer @ Fidelity-Investments | IISC Certified |
Ex-Railways Engineer
Bengaluru, Karnataka, India

Summary

Data Scientist | AI & ML Enthusiast | Problem Solver

I am a versatile **data scientist** with a strong foundation in **machine learning, data modeling, and data visualization**, complemented by hands-on experience in **Python, SQL**, and advanced **ML techniques**. My professional journey bridges diverse domains from leading large teams in the public sector to delivering cutting-edge AI solutions in financial and analytics industries.

Current Focus

At **HSBC**, I specialize in designing innovative analytical solutions, enhancing **Anti-Money Laundering (AML) models**, and managing large datasets to address complex compliance and financial crime challenges. My work combines technical precision with a business-first mindset, delivering solutions that improve efficiency, accuracy, and decision-making processes.

Unique Blend of Skills

- **AI & Data Science Expertise**: Proficient in **EDA**, **clustering**, **feature engineering**, **PCA**, and advanced **regularization techniques**. Skilled in leveraging tools like **LangChain**, **Databricks**, **FAISS**, and **ChromaDB** to deliver impactful AI solutions.
- **Leadership & Management**: Successfully led a team of 20+ professionals in the public sector, demonstrating exceptional coordination, planning, and execution abilities.
- **Cross-Industry Versatility**: Transitioned from a role as an Electrical Engineer in the construction industry to becoming a data-driven problem solver, showcasing adaptability and continuous growth.

Vision

I am passionate about leveraging **data science and AI** to solve real-world problems, optimize processes, and deliver measurable business value. Whether it's enhancing compliance models, automating workflows, or building AI-powered systems, my focus remains on creating impactful solutions that drive success.

Let's connect if you're looking to collaborate on data-driven innovations or discuss how AI can revolutionize your business.

Experience

Fidelity Investments

Lead Data Science Engineer

July 2025 - Present (10 months)

Bengaluru

HSBC

Senior Analyst

November 2022 - July 2025 (2 years 9 months)

Bengaluru, Karnataka, India

- Leveraged SQL to extract, transform, and analyze large datasets for compliance and financial crime risk management.
- Collaborated with Compliance, Risk Management, and IT teams to design analytical solutions and actionable insights.
- Experimented with feature engineering to enhance Anti-Money Laundering (AML) model performance.
- Ensured model governance by validating and documenting models for regulatory compliance.

Fractal

Decision Scientist / Consultant

September 2021 - November 2022 (1 year 3 months)

- Interface with client to understand their problems and work with the delivery team on solutions that address the client needs.
- Provide high-end consulting to clients to help them sharpen their business strategy by implementing.

- Develop & conceptualize sophisticated & innovative analytical solution and actionable insights with high client and business understanding.
- Develop analytical models that support the realization of business objectives.
- Developed Web scrappers using Beautiful Soup to Fetch Pet Nutrition data from “chewy.com” and provided solutions to clients to help them sharpen their business

Rail Vikas Nigam Limited

Electrical Engineer

January 2018 - September 2021 (3 years 9 months)

Analysation of site data and providing effective solution for problems at Sites,using Visualization in Excel.

Analysation and maintainance of site data, using Excel and SQL,got an exposure of SQL .

Data collection and coordination with teams for various activities, ensuring the execution of work according to standards, and safety protocols.

Resolving issues/problems at sites.

Handling Cross-functional responsibilities like coordinating between various departments for faster execution of work.

VIKRAN Engineering & Exim Pvt. Ltd.

Graduate Engineering Trainee

June 2017 - January 2018 (8 months)

Management,Planning, Execution and Testing of 220KV/132KV substation work.

Handling Billing and material Management of site, using Excel.

Analysation of site data for faster execution of work.

Education

Indian Institute of Science (IISc)

Advance Certification Programme in Generative AI and Prompt Engineering, Generative AI · (August 2024 - December 2024)

Great Lakes Institute of Management

PGP-DSE course, Data science · (2021 - 2021)

Jaipur Engineering College & Research Center,jaipur

Bachelor of Technology - BTech, Electrical Engineering
